About The Program:

This program is called Student and Lecturer Exchange, which is participated in by Kadiri University and Academy Policy and Development, Vietnam. This activity is a non-credit short course that presents several interesting activities for the participants. Among them are cultural performances from each country, including dances, songs, drama performances, etc. This program is also designed to introduce the education system at Kadiri University, which previously visited the Academy of Policy and Development, Vietnam, in 2023. The hope is that this program, a form of implementation of the MoU, will strengthen the relationship between the two parties to establish a good, mutually beneficial partnership that will benefit all. This rundown is tentative. If there is a change in the schedule later, we will follow the latest information.
